

# Creative Super Investigators!

At BHJS we are looking to excite and create meaningful contexts around the foundation subjects' curriculum and we have agreed to work on engaging our pupils to be **Creative Super Investigators**!

Each half term there is a linked theme across all year groups.

All year group projects are the same length. (See step one)

There will be a "hook" to motivate the learning and an "outcome" to support the phrase,

"We are learning this because at the end of this work we will be able to ....."

CSI learning time will be in the afternoons and will need to be referred to as CSI Time or CSI Learning.

CSI learning will be planned on the agreed MTP (see step three), placed on the website and sent home for parents to see.

The weekly planning proforma will also be completed and handed in to SLT on a Friday.

Enquiry based learning, i.e. a new question/ problem to solve in the subject areas each week – will enable children to be creative super investigators and it is expected to be evident on the planning.

The coverage overview of objectives for each subject and each year group (see step two) will be stuck in the front of pupils' excersize books for their CSI work.

The overview will be used to highlight objectives covered and more importantly the extent to which the pupil has achieved.

These will be crucial evidence for foundation subject leaders and will be able to support pupils knowing their own strengths and self-assessment.

Step One – Yearly Overview

	SI Lea	rning!	Events	Year 3	Year 4	Year 5	Year 6				
Autumn 1	8 Weeks	Welcome to our World		Inspirational Italy	Russia - The Firebird Story	Brazil	Mexico and the Mayans				
Week 1	Tues	1st September	1st 2nd Sept Inset		getting to know you	- class charter etc.					
Week 2	Mon	7th September	hook	Opera and Pizza Party	Firebird Story	Marwell zoo trip	Mexican Party Display				
Week 3	Mon	14th September		Geography	Art	Geography	Geography				
Week 4	Mon	21st September		Ocography	All	Ocograpity	Ocograpity				
Week 5	Mon	28th September		DT Inc. food tech	Geography	Science - livingthings and their habitats	History/Culture				
Week 6	Mon	5th October		Art	English	Music - samba	Art				
Week 7	Mon	12th October					Science- animals inc humans				
Week 8	Mon	19th October	outcome	whole s	chool expo - parents to cor	ne and visit the work and	learning				
Autumn 2	7 weeks	Into the Light		Star Wars	The Lighthouse Keeper's Lunch	Until I met Dudley	BGT				
Week 1	Mon	2nd November	hook	space dome	RNLI visit or guest	space dome	shadow puppets from BGT				
Week 2	Mon	9th November		Science	Science -	Science	Science				
Week 3	Mon	16th November		light . Forces and magnets	sound and electricity	earth + space and forces	light and electricity				
Week 4	Mon	23rd November		DT	DT	DT	DT				
Week 5	Mon	30th November		Music - star wars / space odyssey etc.	English - instructions	English - explanations	English - a Christmas carol				
Week 6	Mon	7th December		light sabre show	RE - Hanukah						
Week 7	Mon	14th December	outcome	Christmas show	Christmas show	Christmas show	BHJS has got talent production				

			Events	Year 3	Year 4	Year 5	Year 6

### STEP TWO – YEAR GROUP OVERVIEW OF OBJECTIVES TO BE COVERED – YEAR THREE

D&T DT1- I can prove that my design meets some set criteria.	Ţ	W	М	E	History H1 -1 can describe events from the past using dates when things	w	М	E	Music M1- I can sing a tune with expression.		W	М	Е
DT2- I can follow a step-by-step plan, choosing the right equipment and materials. DT3- I can design a product and make sure that it looks					happened.  H2- I can use a timeline within a specific period of history to set out the order that things may have happened.				M2- I can play clear notes on instruments. M3- I can use different elements in my composition. M4- I can create repeated patterns with different instruments.				
attractive. DT4-I can choose a textile for both its suitability and its appearance.					H3- I can use my mathematical knowledge to work out how long ago events happened. H4- I can explain some of the times when Britain has been				M5- I can compose melodies and songs. M6- I can create accompaniments for tunes. M7- I can combine different sounds to create a specific mood or				
DT5-1 can select the most appropriate tools and techniques for a given task. DT6-1 can make a product which uses both electrical and					invaded. H5- I can use research skills to find answers to specific historical questions.				feeling.  M8- I can use musical words to describe a piece of music and compositions.				
mechanical components. DT7-I can work accurately to measure, make cuts and make holes.					H6-I can research in order to find similarities and differences between two or more periods of history.				M9- I can use musical words to describe what I like and do not like about a piece of music. M10-I can recognise the work of at least one famous composer.				
DT8-I can describe how food ingredients come together.									M11-I can improve my work; explaining how it has been improved.				
G1-1 can use the correct geographical words to describe a place. G2-1 can use some basic Ordnance Survey map symbols. G3-1 can use grid references on a map. G4-1 can use an atlas by using the index to find places. G5-1 can describe how volcanoes are created. G6-1 can locate and name some of the world's most famous volcanoes. G7-1 can describe how earthquakes are created. G8-1 can name a number of countries in the northern hemisphere.		w	М	E	A1 -l can show facial expressions in my art. A2 - I can use sketches to produce a final piece of art. A3 - I can use different grades of pencil to shade and to show different tones and textures. A4 -I can create a background using a wash. A5 -I can use a range of brushes to create different effects in painting. A6 -I can identify the techniques used by different artists. A7 -I can use digital images and combine with other media in my art. A8 -I can use IT to create art which includes my own work and that of others. A9 - I can compare the work of different artists. A10 -I recognise when art is from different cultures. A11 -I recognise when art is from different historical periods	w	М	E	Maths  M1-1 can compare lengths using m, cm &mm. M2-1 can compare mass using kg & g. M3-1 can compare wolume/capacity using l & ml. M4-1 can measure lengths using m, cm & mm. M5-1 can measure lengths using m, cm & mm. M5-1 can measure wassure lengths using m, cm & mm. M5-1 can measure wolume/capacity using l & ml. Statistics M7-1 can interpret and present data using bar charts, pictograms and tables. M8-1 can solve one-step and two-step questions using information presented in scaled bar charts, pictograms and tables Geometry – propreties of shapes M9-1 can identify horizontal, vertical lines and pairs of perpendicular and parallel lines. M101 can draw 2D shapes. M101 can draw 2D shapes. M111 can make 3D shapes using modelling materials. M121 recognise that angles are a property of shape or a description of a tum. M131 recognise that angles are a property of shape or a description of a tum. M141 can identify right angles. M151 recognise that two right angles make a half-turn & three make a three quarter turn. M161 can identify whether angles are greater than or less than a right angle		W	М	E
Science		W	М	E	Science Rocks	w	M	E	angle Science				Н
Plants SP1 - I can describe the function of different parts of flowing					ROCKS SR1 -I can compare and group rocks based on their appearance and physical properties, giving a reason. SE7- I can describe the fifference between a conductor and insulators; giving examples of each. States of matter SM1- I can group materials based on their state of matter (solid, liquid, gas). SM2- I can explore how some materials can change state.	W	M	E	SWS 1 - I can ask relevant scientific questions. SW2- I can use observations and knowledge to answer scientific questions. SW3-I can set up a simple enquiry to explore a scientific question. SW4- I can set up a test to compare two things. SW5- I can set up a fair test and explain why it is fair. SW6- I can make careful and accurate observations, including the use of standard units. SW7-I can use equipment, including thermometers and data loggers to make measurements. SW8-I can gather, record, classify and present data in different ways to answer scientific questions. SW9-I can use diagrams, keys, bar charts and tables; using scientific language. SW10-I can use findings to report in different ways, including oral and written explanations, presentation. SW11-I can draw conclusions and suggest improvements.	goin g thro ugh			
SP1-1 can group living things in different ways. Sp2-1 can use classification keys to group, identify and name living things. SP3-1 can create classification keys to group, identify and name living things (for others to use). SP4-1 can describe how changes to an environment could endanger living things.  Animals, including humans SA1-1 can identify and name the parts of the human digestive system. SA2-1 can describe the functions of the organs in the human digestive system. SA3-1 can identify and describe the different types of teeth in humans. SA4-1 can describe the functions of different human teeth. SA5-1 can use food chains to identify producers, predators and prey. SA6-1 can construct food chains to identify producers, predators		W	M	E	SS1- I can describe how sound is made. SS2- I can explain how sound travels from a source to our ears. SS3- I can explain the place of vibration in hearing. SS4- I can explore the correlation between pitch and the object producing a sound. SS5- I can explore the correlation between the volume of a sound and the strength of the vibrations that produced it. SS6- I can describe what happens to a sound as it travels away from its source.  Electricity SE1- I can identify and name appliances that require electricity to function. SE2- I can construct a series circuit. SE3- I can identify and name the components in a series circuit (including cells, wires, bulbs, switches and buzzers). SE4- I can draw a circuit diagram. SE5- I can predict and test whether a lamp will light within a circuit. SE6- I can describe the function of a switch in a circuit. SE7- I can describe the difference between a conductor and insulators; giving examples of each. States of matter SM1- I can group materials based on their state of matter (solid, liquid, gas). SM2- I can describe how some materials can change state. SM3- I can explore how materials change state.	W	M	E	SWS 1 - I can ask relevant scientific questions. SW2- I can use observations and knowledge to answer scientific questions. SW3-I can set up a simple enquiry to explore a scientific question. SW4- I can set up a test to compare two things. SW5- I can set up a fair test and explain why it is fair. SW6- I can make careful and accurate observations, including the use of standard units. SW7-I can use equipment, including thermometers and data loggers to make measurements. SW8-I can gather, record, classify and present data in different ways to answer scientific questions. SW9-I can use diagrams, keys, bar charts and tables; using scientific language. SW10-I can use findings to report in different ways, including oral and written explanations, presentation. SW11-I can draw conclusions and suggest improvements.	goin g thro ugh

### STEP TWO – YEAR GROUP OVERVIEW OF OBJECTIVES TO BE COVERED – YEAR FIVE

207		<del></del>	<del>-</del>					T =	T					
DX1 can come up with a range of ideas after collecting information from different sources.  DT2-I can produce a detailed, step-by-step plan.  DT3-I can suggest alternative plans; outlining the positive features and draw backs.  DT4-I can explain how a product will appeal to a specific audience.  DT5-I can evaluate appearance and function against original criteria.  DT6-I can use a range of tools and equipment competently.  DT7-I can make a prototype before make a final version.  DT8-I show that I can be both hygienic and safe in the kitchen.	W	M	E		History HI-1 can draw a timeline with different historical periods showing key historical events or lives of significant people. H2-1 can compare two or more historical periods; explaining things which changed and things which stayed the same. H3-1 can explain how Parliament affects decision making in England. H4-1 can explain how our locality has changed over time. H5-1 can test out a hypothesis in order to answer questions. H6-1 can describe how crime and punishment has changed over a period of time.	W	М	E	Music M1- I can maintain my part whilst others are performing their part. M2-I can improvise within a group using melodic and rhythmic phrases. M3-I can change sounds or organise them differently to change the effect. M4-I can compose music which meets specific criteria. M5-I can use notation to record groups of pitches (chords). M6-I can use my music diary to record aspects of the composition process. M7-I can choose the most appropriate tempo for a piece of music. M8-I can describe, compare and evaluate music using musical vocabulary. M9-I can explain why I think music is successful or unsuccessful. M10 I can suggest improvement to my own work and that of others. M11 I can contrast the work of a famous composer and explain my preferences		W	M	E	
G1-1 can plan a journey to a place in another part of the world, taking account of distance and time. G2-1 can explain why many cities are situated on or close to rivers. G3-1 can explain why people are attracted to live by rivers. G4-1 can explain the course of a river. G5-1 can name and locate many of the world's most famous rivers in an atlas. G6-1 can name and locate many of the world's most famous mountainous regions in an atlas. G7-1 can explain how a location fits into its wider geographical location with reference to human and economical features.	W	М	E		A1 - I can identify and draw objects and use marks and lines to produce texture.  A2-I can successfully use shading to create mood and feeling. A3-I can organise line, tone, shape and colour to represent figures and forms in movement.  A4-I can use shading to create mood and feeling. A5-I can express emotion in my art. A6-I can create an accurate print design following criteria. A7-I can use images which I have created, scanned and found; altering them where necessary to create art. A8-I can research the work of an artist and use their work to replicate a style.	W	М	E	Maths M1-1 can measure and calculate the perimeter of composite rectilinear shapes in cm and m. M2-1 can calculate and compare the area of rectangles (ind squares), and including using standard units (cm2 and cm3) to estimate the area of irregular shapes. M3-1 can estimate volume and capacity. M4-1 can use all four operations to solve problems involving money using decimal notation, including scaling. M5-1 can use the properties of rectangles to deduce related facts and find missing lengths and angles. M6-1 can distinguish between regular and irregular polygons based on reasoning about equal sides and angles. M7- can identify 30 shapes, including cubes and other cuboids, from 2D representations. M8-1 can identify, as the same of the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not changed. M9-1 can complete, read and interpret information in tables, including timetables. M10-1 can solve comparison, sum and difference problems using information presented in a line graph.		w	M	Е	
Living things and their habitats SP1-I can describe the life cycle of different living things, e.g. mammal, amphibian, insect bird. SP2-I can describe the differences between different life cycles. SP3-I can describe the process of reproduction in plants. SP4-I can describe the process of reproduction in animals.  Animals, including humans SA1-I can create a timeline to indicate stages of growth in humans.  Earth and space SE1-I can describe and explain the movement of the Earth and other planets relative to the Sun. SE2-I can describe and explain the movement of the Moon relative to the Earth. SE3-I can explain and demonstrate how night and day are created. SE4-I can describe the Sun, Earth and Moon (using the term spherical).  Forces SF1-I can explain what gravity is and its impact on our lives. SF2-I can identify and explain the effect of air resistance. SF3-I can identify and explain the effect of water resistance. SF4-I can identify and explain the effect of friction. SF5-I can explain how levers, pulleys and gears allow a smaller force to have a greater effect.	W	М	E	E	Properties and changes of materials SM1- I can compare and group materials based on their properties (e.g. hardness, solubility, transparency, conductivity, [electrical & thermal], and response to magnets). SM2- I can describe how a material dissolves to form a solution; explaining the process of dissolving. SM3- I can describe how some materials can be separated. SM3- I can describe how some materials can be separated. SM5- I can demonstrate how materials can be separated (e.g. through filtering, sieving and evaporating). SM6- I know and can demonstrate that some changes are reversible and some are not. SM7-I can explain how some changes result in the formation of a new material and that this is usually irreversible. SM8-I can discuss reversible and irreversible changes. SM9-I can give evidenced reasons why materials should be used for specific purposes.	W	М	E	Working scientifically SW1-1 can plan different types of scientific enquiry. SW2-1 can control variables in an enquiry. SW3-1 can measure accurate and precisely using a range of equipment. SW4-1 can record data and results using scientific diagrams and labels, classification keys, tables, scatter graphs, bar and line graphs. SW5-1 can use the outcome of test results to make predictions and set up a further comparative fair test. SW6-1 can report findings from enquiries in a range of ways. SW7-1 can explain a conclusion from an enquiry. SW8-1 can explain causal relationships in an enquiry. SW9-1 can relate the outcome from an enquiry to scientific knowledge in order to state whether evidence supports or refutes an argument or theory. SW10 Read, spell and pronounce scientific vocabulary accurately.	On- goin g f thro ugh out				

### STEP TWO – YEAR GROUP OVERVIEW OF OBJECTIVES TO BE COVERED – YEAR SIX

D&T	 W	М	E	Ē	History	W	М	F	E	Music	П	W	М	E
DT1-I can use market research to inform my plans and ideas. DT2-I can follow and refine my plans. DT3-I can justify my plans in a convincing way. DT4-I can show that I consider culture and society in my plans and designs. DT5-I show that I can test and evaluate my products. DT6-I can explain how products should be stored and give reasons. DT7-I can work within a budget. DT8-I can evaluate my product against clear criteria.				p + e + v + c + b + +	H1-I can place features of historical events and people from the past societies and periods in a chronological framework. H2-I can summarise the main events from a period of history, explaining the order of events and what happened. H3-I can summarise how Britain has had a major influence on the world. H4-I can summarise how Britain may have learnt from other countries and civilizations (historically and more recently). H5-I can identify and explain differences, similarities and changes between different periods of history. H6-I can identify and explain propaganda. H7-I can describe a key event from Britain's past using a range of evidence from different sources.  H8-I can describe the features of historical events and way of life from periods I have studied; presenting to an audience.					M1-can sing in harmony confidently and accurately. M2-I can perform parts from memory. M3-I can take the lead in a performance. M4-I can use a variety of different musical devices in my composition (including melody, rhythms and chords). M5-I can evaluate how the venue, occasion and purpose affects the way a piece of music is created. M6-I can analyse features within different pieces of music. M7-I can compare and contrast the impact that different composers from different times have had on people of that time				
G1-I can use Ordnance Survey symbols and 6 figure grid references. G2-I can aswer questions by using a map. G3-I can use maps, aerial photographs, plans and e-resources to describe what a locality might be like. G4-I can describe how some places are similar and dissimilar in relation to their human and physical features. G5-I can name the largest desert in the world and locate desert regions in an atlas. G6-I can identify and name the Tropics of Cancer and Capricorn as well as the Arctic and Antarctic Circles. G7-I can explain how time zones work and calculate time differences around the world.				E A A a iii A A n	Art - I can explain why I have used different tools to create art. A2-I can explain why I have chosen specific techniques to create my art. A3-I can explain the style of my work and how it has been influenced by a famous artist. A4-I can over print to create different patterns. A5-I can use feedback to make amendments and improvement to my art. A6-I can use a range of e-resources to create art.	W				Maths M1-I can solve problems involving the calculation and conversion of units of measure, using decimal notation up to 3 decimal places where appropriate. M2-I can compare and classify geometric shapes based on the properties and sizes. M3-I can decive size simple 30 shapes. M4-I can draw 20 shapes given dimensions and angles. M5-I recognise and build simple 30 shapes, including making nets. M6-I can find unknown angles in ann y triangles, quadrilaterals and regular polygons. M7-I recognise angles where they meet at a point, are on a straight line, or are vertically opposite, and find missing angles. M8-I can illustrate and name parts of circles, including radius, diameter and circumference. M9-I know the diameter is twice the radius. M1-D1 can draw and translate simple shapes on the co-ordinate plane, and reflect them in the axes. M11-I can describe positions on the full co-ordinate grid (all four quadrants). M12-I can interpret and construct pie charts and line graphs and use these to solve problems		W	M	Е
Living things and their habitats SP1-1 can classify living things into broad groups according to observable characteristics and based on similarities & differences. SP2-1 can describe how living things have been classified. SP3-1 can give reasons for classifying plants and animals in a specific way.  Animals, including humans SA1-1 can identify and name the main parts of the human circulatory system. SA2-1 can describe the function of the heart, blood vessels and blood. SA3-1 can discuss the impact of diet, exercise, drugs and life style on health. SA4-1 can describe the ways in which nutrients and water are transported in animals, including humans. Evolution and inheritance SEV1-1 can describe how the earth and living things have changed over time. SEV2-1 can explain how fossils can be used to find out about the past. SEV3-1 can explain about reproduction and offspring (recognising that offspring normally vary and are not identical to their parents). SEV4-1 can explain how animals and plants are adapted to suit their environment. SEV5-1 can link adaptation over time to evolution.	w	M	E		Light Light S1.1-I can explain how light travels. S1.2-I can explain and demonstrate how we see objects. S1.3-I can explain why shadows have the same shape as the object that casts them. S1.4-I can explain how simple optical instruments work, e.g. periscope, telescope, binoculars, mirror, magnifying glass etc.  Electricity SE1-I can explain how the number & voltage of cells in a circuit links to the brightness of a lamp or the volume of a buzzer. SE2-I can compare and give reasons for why components work and do not work in a circuit. SE3-I can draw circuit diagrams using correct symbols.	w	M	11 E		Working scientifically  SW1-I can plan different types of scientific enquiry.  SW2-I can control variables in an enquiry.  SW3-I can measure accurate and precisely using a range of equipment.  SW4-I can record data and results using scientific diagrams and labels, classification keys, tables, scatter graphs, bar and line graphs.  SW5-I can use the outcome of test results to make predictions and set up a further comparative fair test.  SW6-I can report findings from enquiries in a range of ways.  SW7-I can explain a conclusion from an enquiry.  SW8-I can explain causal relationships in an enquiry.  SW9-I can relate the outcome from an enquiry to scientific knowledge in order to state whether evidence supports or refutes an argument or theory.  SW10 Read, spell and pronounce scientific vocabulary accurately.	On- goin g thro ugh out
